

Course Program

Certified Professional Scrum Master (PSM)

 2 days

 EN, FR

€ 1450 € HTVA/ per person

The Certified Scrum Master training will give you a full experience of the Agile principles and Scrum.

After this training, you will know how to apply Scrum successfully. You will also learn many practical tips and tricks that you can apply the next day in your team or organization.

Objectives

After this training, you will have the knowledge, understanding and practical skills to work effectively with Scrum.

You will be ready to start implementing Scrum, or you will be able to improve your current Scrum implementation and boost the results of your team!

You will also be well prepared to take, and pass, the Certified Scrum Master exam. The fee for this exam is included in the course price.

Pre-requisites

This training is interesting for those who are new to Scrum, as well as those who have been practicing Scrum for a while. There are no specific prerequisites. We do ask you to do some preliminary reading before coming to the class.

Program

The Certified Scrum Master training is a highly interactive course. It will be a mix of theory, exercises, games, discussions and real-life examples. There will be ample time for your own questions. The topics that we will cover are:

- The Agile principles and mindset
- The Scrum Framework
- The three Scrum roles and how they work together
- The role of the Scrum Master in depth
- How to run effective Scrum meetings
- Agile requirements and Product backlog management
- Agile estimation of effort and business value
- Short-term and long-term planning with Scrum
- Kickstarting Scrum
- High-performing teams
- Large scale Scrum and distributed Scrum
- Adopting Scrum in your organization

Audience

The certified Scrum Master training is valuable for anyone wants to be successful at applying Scrum in their organization. It will benefit different roles such as: (potential) Scrum Masters, all team members, project managers and line managers.

Scrum is not limited to IT. Therefore, this course also benefits people from many other fields, such as Marketing, Sales, Education, etc.
